## THREE MILLIONAIRES IN PROH RING

Charlestonian Englishman and Savannah Banker said to be in Clique.

Chicago, Nov. 24.—A Savannah, Ga., banker is under indictment with three other men, two of them said to be wealthy, in connection with an organized band of prohibition violators, according to federal officials here today in connection with removal proceedings against Louis Kantor, on a federal bench warrant issued at Savannah. Government agents from Washington were here to present evidence against Kantor.

Besides the banker, whose name was withheld pending his arrest, Assistant Attorney Hamlin said the others indicted were W. H. Haar, an Englishman living in Savannah, and M. S. Sullivan of Charleston, S. C. The latter, according to the assistant district attorney, is the owner of several yachts and power boats which are alleged to have been used in smuggling liquor from Porto Rico and Cuba and sold along the South Atlantic coast.

Government agents referred to the band of smugglers as "headed by three millionaires, and which they said had been the object of investigation of five months' duration."

Kantor, who was arrested here recently, is charged by government agents with being an agent of the alleged liquor ring.

## PRISON CAMPS SCORED BY DR WILLIAMS

Chain Gang Conditions are Branded "Brutal and Expensive" Gov. Harvey Doubts Conditions.

Greensboro, N. C., Nov. 24.—Conditions in the chain gangs in South Carolina are "brutal and expensive," G. C. Williams, of Columbia, former secretary of the South Carolina state board of public welfare today told the Citizens' committee of 100 of the North Carolina social service conference. Prisoners sent to the chain gangs in his state are placed in chains, forced to wear stripes and are beaten "unmercifully," Mr. Williams said, and declared that politics is responsible for the conditions he charged. Predicting that within a few years prison camps will be abandoned, he recommended establishment of a farm for women prisoners, training school for younger prisoners, creation of a "just" parole system, district jails instead of county jails, a receiving station through which all prisoners could be sent, and provision for paying them something for their labor.

The committee met here to hear reports from its sub-committee and to decide upon recommendations to the North Carolina legislature.

Columbia, Nov. 24.—Doubt that conditions in South Carolina prison camps outlined in a report of an address made in Greensboro, N. C., today by Dr. G. C. Williams, were as bad as indicated was expressed here tonight by Governor Wilson G. Harvey.

If harsh treatment were general, the governor said, the condition would have been reported to him and he would have taken steps to alleviate it. Dr. Williams recently resigned as secretary of the South Carolina board of public welfare.

Expressing the belief that if the address had been reported in full modifying statements would have been found, the governor said:

"I have no doubt that there were men wearing chains in different sections of the state and that men wear stripes and I am not adverse to their doing so. No doubt there have been cases of harsh treatment of prisoners, but these cases are isolated.

"If such conditions were general, they would have been reported to me and I would have taken a hand in them immediately.

"My own experience has been in making investigations, that there is too much laxity shown in handling prisoners and that they are extended too many privileges and liberties. Investigations have been made of reports of harsh treatment accorded prisoners and they have been found, at times, to have been grossly exaggerated.

"I feel that had the conditions outlined in the report from Greensboro been general they would have been reported to me in the frequent conferences with Dr. Williams." The governor said that the Greensboro address of Dr. Williams would be discussed at the meeting of the board next Monday.

## TROUBLE BREWING FOR PALESTINE

Menace Presented by Arab Tribes. May at Any Time Attack Jewish Immigrants.

London, Nov. 18.—Very serious trouble is brewing in Palestine, according to The News of the World, which states that General Tudor and other officials on the spot regard the future with "grave apprehension."

The Arabs on the border and in Palestine itself, the paper says, may at any time attack the Jewish immigrants whom they regard with "deep rooted hostility." The government's authority is being openly flouted by what is known as the "Moslem-Christian association."

A manifesto has been issued, calling upon the population to disobey the instructions issued for the taking of the census, and the association has decided to invoke the aid of Kemal Pasha, the Turkish Nationalist leader.

"Our position," continues The News of the World, "is amazing. In effect, without any advantage to ourselves and under a mandate from the league of nations, we are holding Palestine at a cost of many millions a year for the benefit of Jewish immigrants, and thus incurring the hostility of the Arabs."

"We may shortly find ourselves faced in Palestine with a situation similar to that in Turkey. We shall either have to fight or give way. The question is what would we be fighting for, and what would we gain by fighting?"

"The problem is not an easy one" the paper adds. "Owing to the action of Great Britain, America and France, thousands of Jews have gone to settle in Palestine. It would be interesting to know how much per head per annum each Jewish immigrant is costing Great Britain."
